- Traffic volume peaks in the early evening
- Average daily traffic (one way, including weekends) = 734

Heath House - Oakhanger (3)

- There are many dangerous maximum speeds during daylight hours

Summary & Next Steps

Summary & Next Steps

- Data allow the identification of 'hot spots' that can inform the schedule for 2023 and liaison with Hampshire County Council, Police and Speedwatch
- It is difficult to evaluate the impact of the VAS on speeds without a A/B comparison, however the average speeds are, in general, close to the speed limits, and anecdotal feedback suggests the VAS is effective

Next

- New sites
- Combined data
- Data share with SpeedWatch
