

SELBORNE'S SEASONAL NATURE PROGRAMME

By Selborne Parish Council's Climate and Nature (CaN) Working Group.

This Seasonal Programme is for all Parish residents offering opportunities to promote nature in both community areas and our own homes and gardens. Following the planting of trees in 2022 at Selborne Rec the 2024 programme will start with a working party to help maintain these trees and also to find out about **seed** and **plant** swaps plus *free* **hedge** plants and **trees**. Plus, we are looking into getting volunteers to help in residents' gardens. The programme is outlined on the right... look out for further details.

ALL WELCOME !!

DO COME AND JOIN IN AND / OR FIND OUT MORE
